DETAILED ACTION

Claims 1-10 are currently pending in this application. Claims 1-3, 7, 8 and 10 are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention. The withdrawn subject matter is patentably distinct from the elected subject matter as it differs in structure and element and would require separate search considerations. In addition, a reference, which anticipates one group, would not render obvious the other.

Previous Rejections/Objections

Claims 4-6 and 9 were objected for depending on a non-elected claim. Applicants Amendment filed on June 06, 2008 have overcome the objection.

Claims 4-6 and 9 (incorrectly referred to as 14-25 in previous office action) were objected to for containing non-elected subject matter. Applicant's amendment filed on June 06, 2008 has overcome the objections.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 4-6 and 9 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting over claims 1-4 and 6 of co-pending U.S. Application No. 10/570,136. Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims are drawn to the same art recognized subject matter. A reference anticipating one set of claim will render the other obvious and it would have been obvious to one of ordinary skill in the art at the time of the invention was made since U.S. Application No. 10/570,136 (Publication No. US 2007/0072850A1). Claims 4-6 of the invention are directed to 5-substituted-alkylaminopyrazole compounds of Formula

as defined above. Claim 9 is directed to pesticide composition.

of said compounds. US 2007/0072850A1 teach compounds of Formula

and their pesticide composition. The only difference between the

two sets of claims is that variable R1 is limited to CN in the present application whereas it represents CSNH2 in US 2007/0072850A1 Since both sets of claims have the same utility and are used as pesticides, one of ordinary skill in the art would deem that the compounds and

compositions are obvious variants and are therefore patentably indistinct. The motivation derives from the expectation that structurally similar compounds are generally expected to have similar utilities. In re Gyurik, 596 F. 2d 1012, 201 USPQ 552 (CCPA 1979).

The Examiner thanks Applicant for pointing out the error in the use of the U.S. Serial No. used in the rejection in the previous office action. Applicants have not yet filed a Terminal Disclaimer, therefore the rejection is maintained.

Therefore **THIS ACTION IS MADE FINAL** . Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136 (a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
